### EXPLANATORY NOTES

This Bulletin contains estimates of the numbers of wage and salary earners in employment for each month from June, 1947 to June, 1960. The estimates have been obtained from three main sources, namely: -

- (a) monthly data as to persons employed in factories as shown at annual Factory Censuses;
- (b) monthly returns from Government Bodies; and
- (c) monthly Pay-roll Tax returns.

Some other direct records of employment have also been used (e.g., for hospitals).

These data have been supplemented by estimates of the number of employees outside the ambit of the Factory Census, Government employment collections and Pay-roll Tax returns.

Interim estimates of the number of employees in factories (based on Pay-roll Tax returns and returns from Government factories) are replaced each year by the actual monthly number of employees as recorded at successive annual Censuses of Factories.

Substitution of Factory Census figures each year entails the adoption of new figures for "Total Manufacturing", "Total Private Employment" and "Total Employment" for males, females and persons, in all tables affected. Also, a considerable number of other revisions to current figures are made from time to time.

For these reasons, it has sometimes been difficult to obtain, from published information, a revised monthly employment series covering a period of years. This Bulletin, which contains the principal series, currently published in the Monthly Bulletin of Employment Statistics, is intended as a source of reference for the period June, 1947 to June, 1960. The figures herein incorporate the results of Factory Censuses to 1959-60. Particulars for months subsequent to June, 1960 have not been included, because of the likelihood that they will be revised when the Factory Census for 1960-61 is tabulated.

Also, because of considerations of space, it has not been possible to include certain monthly series, such as that showing employment in the main industrial groups in each State, but the information omitted is available on request. In many cases, State details will be found in the relevant publications of the several State offices of the Bureau.

The purpose of the estimates of employment in this Bulletin is to measure, as nearly as may be with available data, monthly trends in employment in the defined field. They are compiled on an enterprise or establishment basis, and therefore do not cover exactly the same area of industry as do the relevant industry tabulations of the General Population Censuses of 1947 and 1954, which are based on the returns of individual employees. However, it is possible that the results of the Census of June, 1961 may show the need for some revision of the figures for non-factory employment.

The terms "Employment", "Number Employed", "Employees" and "Wage Earners" used herein are synonymous with, and relate to, "Wage and Salary Earners" on pay-rolls or "in employment" in the latter part of each month as distinct from numbers of employees actually working on a specific date. They include some persons working part-time.

Pay-roll Tax returns at present are lodged by all employers paying more than £200 a week in wages (other than certain Commonwealth Government Bodies, religious and benevolent institutions, public hospitals and other similar organizations specifically exempted under the Pay-roll Tax Assessment Act 1941-1961). This Act, when

originally introduced in 1941, required employers paying wages of more than £20 a week to lodge returns. The exemption limit was raised to £80 a week from 1st October, 1953 and to £120 a week from 1st September, 1954. The present exemption limit of £200 a week was introduced as from 1st September, 1957.

Wage earners in rural industry and females in private domestic service have been excluded from all tables in this Bulletin. Because of the limited coverage of Pay-roll Tax returns in these two fields, accurate estimation of the numbers employed is not possible.

For footnotes see page 41.

NOTES TO TABLESTABLE 1 -

- (a) Includes all employees of Government Bodies (Commonwealth, State, Local and Semi-Government) on services such as railways, tramways, banks, post office, air transport, education, broadcasting, television, police, public works, factories and munitions establishments, migrant hostels, etc., as well as administrative employees, within Australia.
- (b) Includes members of Permanent Defence Forces in Australia and overseas and, from July, 1951 to November, 1959, National Service Trainees in camp. Non-enlisted personnel are included to June, 1956.

TABLES 2 AND 4 -

- (a) Figures for July, 1951 to November, 1959 also exclude National Service Trainees in camp.

TABLES 5 TO 7 -

- (a) See note (a) to Tables 2 and 4 above.
- (b) The figures shown represent the actual monthly employment in factories as recorded at successive annual Censuses of Factories to June, 1960. In this connexion, a factory is defined as an industrial establishment in which four or more persons are employed, or in which power, other than manual, is used. The employees covered are those engaged in manufacturing activities and exclude those engaged in selling and distribution, etc.
- (c) Includes employees in industrial establishments outside the scope of the definition of a factory (given in (b) above) and persons employed by factory proprietors but engaged in selling and distribution, etc., who are excluded from figures shown opposite "Factories". Includes employees in factories in the Northern Territory and the Australian Capital Territory.

TABLE 8 -

- (a) See note (a) to Table 1 above.
- (b) Includes Semi-Government Bodies.
